## Matric Jerseys Delivered

---

### *An announcement on Friday had the matrics aflutter... a gift*

One of the biggest challenges for the Matric Committee each year is the design, order and delivery of the Matric Jerseys. How do you get 155 girls to agree on a design? How do you ensure that the agreed design is of a good quality, suits everyone and is paid for and delivered on schedule.

Then, there were the initial sizing hiccups and refinishing! It was with great delight and not some small degree of relief that the jerseys officially arrived on Friday and the committee was able to hand them out to the very excited matric girls.

Congratulations to the committee on a job well done! Despite the challenges, you did amazingly well!
